PROFESSIONAL SUMMARY

Diploma in Information Technology student with hands-on experience developing web applications using PHP, JavaScript, HTML, CSS, MySQL, including CRUD functionalities, database-driven applications, and responsive interfaces. Foundational knowledge of Microsoft Azure through coursework. Seeking a Software Engineer, Web Developer, or related IT roles for September 2026 – December 2026.

TECHNICAL SKILLS

- **Programming Languages:** Python, JavaScript, PHP
- **Frontend:** HTML, CSS
- **Database:** MySQL
- **Tools and Platforms:** Git, Github, Visual Studio Code, PyCharm

ACADEMIC PROJECTS

UIU V2.0 Student Attendance System (Final Year Project)

HTML / CSS / PHP / MySQL

- Developed a web-based university student attendance system that enables attendance tracking and monitoring.
- Designed role-based access control (RBAC) for students, lecturers, and admins, restricting data visibility and actions by role.
- Implemented automated attendance percentage calculation with real-time alerts when students fall below the attendance threshold.

E-Commerce Website

HTML / CSS / JavaScript / PHP / MySQL

- Developed an e-commerce website featuring product browsing, search and sort filter, shopping cart, and checkout functionality.
- Implemented search and sort filter functionality allowing users to narrow products by category.
- Developed a shopping cart and checkout flow handling.

Library Management System

HTML / CSS / JavaScript / PHP / MySQL

- Collaborated in a team of 4 to build a library management web application with catalogue browsing and borrow/return functionality, contributing the front-end UI.
- Built role-based UI views that conditionally render admin/staff only actions based on session data.

EDUCATION

Diploma in Information Technology

UNITAR International University

CGPA: 3.46/4.00

September 2024 – March 2027

Sijil Pelajaran Malaysia (SPM)
